# Hanger at Lawrence Municipal Airport- North Andover, Ma.

9,441 sf. Maintenance & Industrial Space  
1,697 sf. Office Space  
568 sf. Parts Department  
11,706 sf. Total

**Client Information:** Executive Flyers Aviation (EFA) is one of the oldest flight schools in New England and the premier provider of flight services in the Metro Boston Area. EFA has become one of the nations largest Cessna Pilot Centers.

**MCM** Designed and Built this 11,706 sf fixed base operation at Lawrence Airport. The airport hangar has a mixed use occupancy between business space, flight school and airplane maintenance. The office consists of executive offices, pilots lounge, sales office and a teaching classroom. A blend of design elements are used throughout the interior. High end elements are present in the client sales areas and more practical design elements are used in the service and maintenance areas.
